THE BROW AND SKIN STUDIO'S **SHERRIL DALITZ** TAKES TIME OUT FROM HER ASHGROVE BUSINESS TO SHARE HER FAVOURITE THINGS WITH US.

- 1. GREEN & BLACK'S ORGANIC CHOCOLATE.** It's organic and a great antioxidant! It's only 35g, so I don't feel too guilty. It has a decadent intense flavour devoid of that sickly sweetness often found in other milk chocolates.
- 2. KATE SPADE TOTE.** The ribbons of pink and green add a quirky statement to what could be considered a conservative style.
- 3. MARILYN, THE CLASSICS BY NORMAN MAILER.** I've always been a passionate collector of Marilyn Monroe books and movies. This is my prized publication. Printed about 25 years ago, it's a collector's item with extraordinarily beautiful pictures.

- 4. DECOPAGE BOX.** My husband found the box in an antique store, covered in tatty velvet, which he removed then stripped back to the bare wood. I cut out different images and he placed each piece. The box is a real labour of love. Decoupage of this calibre takes months to complete, with layer upon layer of lacquer applied then sanded back to achieve this silky smooth finish. It's full of precious family photos and keepsakes.
- 5. BABY'S LAYETTE.** Crafted from silk thread, it was crocheted by my grandmother about 50 years ago. My mother dressed my two sisters and I in it when we were christened. My nieces and nephews have been christened in it too.
